- d. Each parent shall determine the children's activities and social events while residing with that parent. The parents shall confer with each other when planning the children's activities and social events if such events may affect the children while the other parent may be exercising physical custody of the children. Neither parent shall unreasonably withhold permission for the children to participate in an activity because the activity is scheduled to take place during his or her period of parenting time.
- e. The children's academic school commitments and requirements shall take priority over participation in sports, social events and other extracurricular activities.

6. Plan for Child Care, Daycare, and Babysitters:

1. **Rules and Procedures.** These rules and procedures will govern communication between the parents and the parents of the children:
 - a. The parents shall communicate as follows in implementing all aspects of this parenting plan:

Each parent will therefore avoid any action that may reasonably be expected to create loyalty conflict in the children.
 - e. The parents will not ask the children where they want to live or encourage the children in any way to choose between their parents; instead, parents will encourage the children to enjoy their two homes and membership in each parent's family.
 - f. The parents will use child-friendly vocabulary (such as "timesharing" or "when you are in your other home" or "mother/father") with the children and in the

children's presence, rather than words such as "custody," "visitation," or "my ex."

- g. The parents will not, nor will they allow others to, probe the children about their time at the other home, about their other household members, or about any coparenting matter.
- h. Each parent shall keep the other informed of their residence address, mailing address, residence telephone number, work address and work telephone number. - l. Neither parent shall refer to the other parent in negative or demeaning language in the presence of or within the hearing of the children nor shall they allow others to do so.
- m. Each parent shall provide the other parent with a written travel itinerary (including location destination, flight information, contact information) at least seven days prior to departure if the children will be traveling out of the state for one or more overnights.
- n. Each parent may travel domestically or internationally with the children. Parents will cooperate in providing any necessary permissions including but not limited to passport authorization.
- o. The parents shall not discuss court related, financial and other business issues when the children are present, such as when exchanging the children or during telephone conversations with the children.
- p. Neither parent shall use foul or abusive language in the presence of the children nor permit others to do so.
- q. When discussing any issues regarding the children, the parents shall be polite and respectful to each other, recognizing that reasonable parents sometimes may disagree on parenting issues.

G. DISPUTE RESOLUTION PROCEDURES

1. **First Discuss and Attempt to Agree:** if the parents disagree on issues regarding the children, they will first confer with each other, listen carefully to each other and attempt to resolve the matter between themselves.
2. **Mediation:** If the parents cannot resolve a dispute, either party may initiate mediation by calling 1-800-595-9750 to arrange mediation through MARCH Mediation. In that event, mediation will take place within thirty (30) days from the date of the initial request unless prohibited by the schedule of the mediator. If the parties mediate with someone other than a MARCH Mediator or if MARCH Mediation is unavailable, both parties will agree to a mediator. All costs of mediation will be equally divided.

H. RELOCATION OF THE PARENTS OR CHILDREN

1. **Law Regarding Relocation:** Absent exigent circumstances as determined by a court with jurisdiction, the parents shall notify, in writing by certified mail, return receipt requested, and at least sixty days prior to the proposed relocation, the other party to this action of any proposed relocation of the principal residence of the children, including the following information:
 - a) The intended new residence, including the specific address and mailing address, if known, and if not known, the city;
 - b) The home telephone number of the new residence, if known;
 - c) The date of the intended move or proposed relocation;
 - d) A brief statement of the specific reasons for the proposed relocation of the children;
 - e) A proposal for a revised schedule of custody or visitation with the children; and
 - f) That the other party, if that party is a parent, has the right to file a motion and affidavit, seeking an order to prevent the relocation and setting forth the specific good-faith factual basis for opposing the relocation within thirty days of the receipt of the notice.
2. **Failure to Give Notice:** The obligation by the parents to provide this information to the other party continues as long as one of them remains entitled to custody of a child. The parties further acknowledge that their failure to obey the order of this court regarding the proposed relocation may result in further litigation to enforce such order, including contempt of court. In addition, said failure to notify a party of a

relocation of the child/children may be considered in a proceeding to modify custody or visitation with the child/children. Reasonable costs and attorney fees may be assessed against either party if s/he fails to give the required notice. In accordance with §452.377 RSMo., the residence of the child/children may be relocated sixty (60) days after providing such notice unless, within thirty (30) days after receipt of such notice, a parent files a motion seeking an order to prevent the relocation, accompanied by an affidavit setting forth the specific factual basis supporting a prohibition of the relocation.

Within ten days of receipt, the parent should send the other parent a copy of the insurer's Explanation of Benefits showing the amount paid or denied. Within ten days of receipt, the parent should also send the other parent a copy of the statement from the health care provider showing receipt of insurance payments and the balance due on the account. Within 30 days of mailing of the Explanation of Benefits and/or the health care provider statement, each parent shall pay his or her share of the amount owed to the medical provider

and reimburse the other parent the appropriate portion of the amount advanced by that parent. If the amount owed to the medical provider cannot be paid in full within 30 days, each parent should arrange with the provider for payment of his or her share of the expenses. - d. Any payment for benefits paid under an insurance policy in reimbursement for expenses paid by a parent shall be reimbursed to the parent who paid for the services. If the insurance provider sends payment to the parent who did not make the payment, then the parent who receives payment shall be deemed a trustee for the parent who made the payment. The parent who received the payment shall immediately forward payment to the parent entitled to receive the same.

4. Extraordinary Expenses:

- a. Each parent will pay one-half of all mutually agreed upon extracurricular activity expenses of the children which are agreed to in advance and which

If one party does not pay his or her share of the educational expenses as outlined in this paragraph and the paying parent must hire an attorney to enforce compliance, the non-paying party shall pay the paying party's attorney's fees and, if the paying party must bring a lawsuit, the non-paying party shall pay all costs.

6. **College Education Expenses:**

- a. The parties agree to divide, in these proportions: Mother-1/2 and Father-1/2, the reasonable costs of a college education for a child attending a post-secondary college, university, or vocational/technical school, state or private, subject to these limitations:
 - a. "Cost" shall include tuition, incidental fees, books, meal ticket and dormitory costs for room and board (whether a child resides in a dormitory or not). It does not include room and board while residing with either parent.
 - b. The percentage each to pay shall be the actual cost to the child. Therefore, if a child receives a scholarship or other aid which reduces cost, the cost does not include such scholarship or aid and such scholarship or aid shall reduce the amounts otherwise payable as costs by applying such aid to each party's obligation according to the percentage allocation. For this purpose, loans to the student shall not be a "scholarship or other aid."
 - c. If a child resides outside the dormitory the parent's obligation for room and board should be limited to the cost based on the resident dormitory fee plus full meal ticket at the institution. This means that neither parent should have to pay more for room and board by the child's decision to live off campus. Off campus room and board costs include rent, basic utilities, and a set amount each month designated for food.
 - d. Actual expenses for fees include fees for incidental, laboratory, student activity, parking, transportation, athletics, and fees specific to a course.
 - e. The actual expenses for books and equipment include books, equipment such as a computer, scanner, printer, and calculator. This

expense shall be limited to one computer, scanner, printer, and calculator for the child.

- f. College expenses also include the testing fees and entrance costs for pre-entrance college tests including the PSAT, SAT, ACT or other test fees, the cost of all Advance Placement Tests, application fees to the schools applied to and the cost to submit test scores to the schools applied to, and the tuition and fees for college credit obtained while the children are still in high school. This cost will be limited to three pre-entrance college tests and three application fees.
- g. College expenses also include the cost of tuition for college courses taken during high school and college preparation classes.
- h. All late fees, interest or penalties incurred by an untimely payment shall be paid by the parent who does not timely pay his or her share of the costs.
- i. The child must carry at least a minimum number of credit hours each semester, or quarter, whichever applies, which, according to the institution the child attends, constitutes a full-time course of education during the normal fall and spring terms, or quarters, if the same applies.
- j. The maximum cost for which the parties shall be responsible in any school year will be the parties' applicable percentage of the then cost for tuition, fees, books, dormitory costs and for room and board at the University of Missouri at Columbia; provided, however, this provision shall not be construed to require a child to attend the University of Missouri at Columbia for these provisions to apply.
- k. The parties shall not pay over eight (8) semesters or (12) quarters, whichever applies, at a college or university.
- l. The age of emancipation is 21. However, the parties specifically agree to pay for eight semesters or twelve quarters of college expenses regardless of the age of each child when he/she attends college.
- m. The parties specifically waive any formal notice requirements of classes enrolled in and grades received each semester for a child to remain eligible for child support or payment of college expenses. The parties

agree that each parent and each child is responsible enough to communicate this information through email or online notification to the other(s) and that formal notice by documenting this information is unnecessary.

- n. If one parent has a tuition discount by employment at the University of Missouri-Columbia, then said discount will be applied first before tuition costs are reimbursed between the parties.
- o. If the child is an A Plus student the parents agree that the child shall first attend a junior college where tuition is free for the first two years in lieu of a school where the parents and/or child would have to pay tuition. If the child opts to attend a school where tuition is not free but would be free because of the A Plus program or other scholarship/grant, then the child will be solely responsible for all tuition costs while the tuition would have been free.

7. Tax Dependency Exemptions:

- a. Every year, the parents shall divide the Child Tax Credits for all federal and state tax purposes. Mother shall claim Yara each year, and Father shall claim Ariko each year. Neither party will take any action inconsistent with this provision. Both parties will execute all such documents to effectuate this provision including IRS Form 8332 by January 31 of each year.
