Hi Officer Gilstrap,

This is Shingai Samudzi - we spoke on the phone earlier today about the revenge porn case.

I've attached here the evidentiary package, as well as the documents referenced in Section 8 (with the exception of Document 17, which is 249MB, this will be available on the flashdrive with all of the other image and video content that I will share tomorrow).

Just in case you are able to access Google Drive, here is a direct link to where I have all of the image/video content:

https://drive.google.com/drive/folders/1liChuZ_Q-IM4LhttZl7V1p35iQXMMEqv?usp=drive_link

The folders are organized by date of meetup between my wife and Meers. There is another folder "Assorted" which has a subfolder "Jack Files" that has all of the files sent to my wife by Ben Meers

Some files of note (because there are a LOT of images and videos):

In Jack Files Folder:

File_044.png (sex act image of Ben + another unnamed woman)

File_052.png (sex act image of Ben + another unnamed woman)

IMG_8611.mp4 (sex act video of Ben + another unnamed woman with face)

Establishes that Ben has non-consensually sent intimate videos of other women to Amber

IMG_5113.mp4 (example of video in which Ben masturbates to video of Amber that was not shared with Amber)

One of many examples of additional video content Ben has that is not shared directly with Amber, demonstrating balance of power in content possession

In Assorted Folder

IMG_4437.MOV, IMG_4438.MOV, IMG_4441.MOV (three videos with Amber + Shingi + NWI victim)

Lingerie in HD.mp4 (Amber + Shingi)

These represent Victims 2 and 3 (myself and the NWI victim) who never provided consent to any sharing.

Thanks,
--

Hi Officer Gilstrap,

Quick followup after I had a conversation with Ms. McIntosh this evening

Based on my conversation with Amber McIntosh today, she appears to have already spoken with investigators and likely provided statements that require significant contextual understanding. Her responses indicate systematic reframing of events to minimize Ben's culpability and shift blame to me as her spouse.

Key Statements Requiring Context

1. Consent and Coercion Claims

Amber's likely statements to police:

- "Never truly withdrew consent" and "didn't feel harm"
- November 8, 2024 withdrawal message was "coerced and copy/pasted"

- Relationship with Ben was entirely consensual

Critical context:

- She admits I provided withdrawal text after housing ultimatum
- This followed months of documented escalating exploitation during her financial/medical crisis
- Her current defensive stance demonstrates ongoing psychological manipulation by Ben
- She does not deny sharing intimate videos with me and the NWI victim non-consensually with Ben
- She acknowledges that Ben sent her intimate videos with himself and other women

2. Marital Agreement Misrepresentation**Amber's likely claims:**

- 2020 non-monogamy discussion constituted blanket consent to Ben relationship
- "Multiple witnesses can corroborate" this agreement

Actual facts:

- Private 3-minute conversation between spouses in 2020
- She forgot key safety requirement (condom use) from that discussion
- No witnesses to private marital conversation existed
- General discussion did not constitute specific consent to documented predator

3. Abuse Allegations Against Spouse**Amber's narrative:**

- Framing me as "abusive and narcissistic"
- Positioning her mental health issues as solely a result of my behavior, despite the fact that her worst episode (January 2025 ER Psych hold) occurred 4 months after I had moved out
- Using this to justify her choices

Mental Health Context (Critical for Understanding Exploitation)**Pre-existing Vulnerabilities**

- **PTSD (childhood trauma):** Creates susceptibility to manipulation
- **ADHD (congenital):** Affects impulse control and long-term consequence assessment
- These conditions predated our relationship and made her a target

Timeline of Deterioration During Ben Contact

- **February 2022:** Crisis intervention by friend following alarming behavior
- **March 2022:** Began "therapy" with unlicensed Karalyn Streit (whose website has now gone private after previously including Ms McIntosh as a testimonial client in February 2024)
- **August 2023:** Psychiatrist diagnosed hypomanic episode during Ben relationship
- **2024:** Peak crisis during Ben's maximum exploitation demands

Blame-Shifting Pattern

- Classic DARVO (Deny, Attack, Reverse Victim and Offender)
- Absolves documented predator while making spouse responsible for all distress
- Suggests learned manipulation techniques

Ben Meers Predatory Pattern Evidence

Historical Documentation (Pre-2010 to Present)

- **Pre-2010:** Sexual assault involving non-consensual choking
- **2011:** Exploited domestic violence disclosure with inappropriate sexual contact
- **2019-2024:** Systematic escalation during Amber's vulnerable periods
- **13+ years:** Documented pattern of targeting vulnerable women

Exploitation During Crisis (2024)

- Demanded multiple solo videos when Amber had no job/money/car/medication
- Escalated to public sex and "casting couch" scenarios
- Timed maximum exploitation with her maximum vulnerability

Additional Key Evidence - "Casting Couch" Video Orchestration

Amber's Response When Confronted

- **No explanation provided** for the elaborate setup and orchestration
- Unable to rationalize this as spontaneous or mutually conceived
- No explanation for why they completed a 30+ minute video while she was visibly uncomfortable and unenthusiastic
- No explanation for why every boundary we agreed upon in our non-monogamy was violated almost ritualistically in that video
- No explanation for why the lack of condom use was repeatedly sexualized across multiple videos
- This was clearly Ben's directed scenario, not organic intimate activity

Significance of This Evidence

- Demonstrates **premeditated exploitation** rather than consensual relationship
- Shows Ben's **systematic approach** to creating compromising material that was guaranteed to create conflict in Amber's marriage and increase her isolation
- **"Casting couch" is classic exploitation terminology** - references predatory power dynamics in adult industry
- The **deliberate setup contradicts any claims of romantic relationship**

Pattern Recognition

- Escalated from private encounters to **professionally-styled exploitation scenarios**
- Timing coincided with Amber's **maximum vulnerability** (no job/money/car/medication)
- Represents **culmination of grooming process** - victim participating in own exploitation
- **Her inability to explain the orchestration** suggests awareness it wasn't her idea

Investigation Relevance

- **Demonstrates mens rea** (criminal intent) on Ben's part
- Shows **systematic exploitation** rather than consensual intimate relationship
- **Victim's lack of explanation** indicates recognition of the predatory nature
- Evidence of **escalating pattern** designed to create maximum compromising material

This evidence alone demonstrates the predatory, non-consensual nature of Ben's final demands, regardless of Amber's current defensive statements to investigators.

Investigation Implications

Why Victim Defensiveness Supports Rather Than Undermines Case

- Demonstrates depth of psychological control Ben exercises
- Consistent with how systematic predators maintain victim loyalty
- Her willingness to revise documented facts shows ongoing manipulation influence
- Pattern typical in cases involving long-term grooming and exploitation

Recommended Cross-References

- November 8, 2024 documented withdrawal message and timeline
- Mental health treatment records showing deterioration during Ben contact
- Previous admissions/confessions she's now walking back
- Evidence of Ben's historical predatory pattern with other women

Child Safety Concerns

- The casting couch video was found by me on our (at the time) 6 year old's iPad
- Amber's dismissal as "unintentional" despite concrete evidence of harm
- Current inability to acknowledge or prevent such exposures (she previously has accidentally sent intimate materials to other people, including the father of one of our son's best friends)

Conclusion

Amber's defensive stance and narrative revision demonstrate successful predatory manipulation of a psychologically vulnerable individual. Her statements should be understood within this context rather than as reliable accounts of consensual activity.

Available for: Follow-up questions, additional documentation, testimony as needed

Shingi,

I am sorry for my delay. I am off today through the weekend and we are not supposed to check emails etc when we are off. That being said, after speaking with Amber yesterday afternoon, after speaking with you, I do feel from a law enforcement perspective, this case cannot go any further at this time.

I am going to just delete all of the information you have sent me. If Amber reaches out to the Columbia Police Department in the future, then we may request this information again.

Thank you,

Officer Gilstrap

Officer Andrew Gilstrap
Patrol Officer #2315
Columbia Police Department

Hi Officer Gilstrap,

Thank you for your email. However, I need to clarify several important legal issues:

I am a separate victim with independent standing in this case. The evidence I provided documents crimes against me personally:

- Non-consensual intimate recordings involving me
- Violation of my consent when content was shared without permission
- My minor child's exposure to explicit material

Amber McIntosh cannot speak for other victims. Her reluctance to cooperate does not affect:

- My rights as a separate victim
- The rights of other unidentified women whose content was criminally shared
- Federal jurisdiction under the Take It Down Act
- Criminal exposure in multiple other states where content was created

I am requesting that Columbia PD either:

1. **Re-file this case** with me as the primary complainant, or
2. **Refer this case** to federal authorities and other state jurisdictions (such as Douglas County, KS)

The evidence package I provided documents federal crimes across multiple states. One victim's non-cooperation does not eliminate the criminal violations against other victims.

Please advise how Columbia PD intends to address the documented crimes against me and my child as separate victims.

Respectfully, Shingi Samudzi
