FORMAL NOTICE: Institutional Liability & Litigation Hold - Boone County Circuit Court Case No. 25BA-FC01732

Shingi <samudzi@gmail.com>

Thu, Apr 16, 2026 at 5:57 AM

To: LevienA@dnc.org, Andrew Mirsky <andy@mstreetlegal.com>, Jill.Schlude@como.gov

Cc: tana@bennerfamilylaw.com, caseworkPRF@hawley.senate.gov, "Eric R Atamian, Esq." <eric@ericatamian.com>, Nancy.Thompson@como.gov

Counsel,

The 48-hour window for voluntary cooperation has expired. As of 8:38 AM on April 16, 2026, the grace period for a voluntary litigation hold is closed.

I have initiated formal judicial intervention to secure evidence currently being retained by your clients. Please find the enclosed **Motion for Scheduling Order** successfully delivered to the Boone County Circuit Court at 7:18 PM CDT on April 15, 2026 (**Fax ID: #37599150**). Following this motion, we will begin issuing subpoenas for relevant content discovery and depositions from DS Political, Columbia Police Department, and other relevant actors in this Boone County Circuit Court civil case.

The following facts are now a matter of judicial record:

- **Evidence of Child Endangerment:** The Court has been provided with the forensic metadata (SHA-256 hashes) and transcripts of intimate "casting couch" content found on a minor child's iPad. DS Political-affiliated actors directed, created and retained this content. They largely refused to respond to my outreach, despite over 140+ reviews of my messages from April 2025-April 2026. Their only response was legally flimsy harassment accusations, bad faith claims of "private matter" and blatant refusals to cure NCII, despite tacit admission by Meers' "attorney" (his brother in law) of ongoing possession.
- **Documented Police Cover-up:** The filing documents the **Columbia Police Department's** failure to investigate these crimes, specifically referencing **Officer Drew Gilstrap's** written confession regarding evidence-handling misconduct, including his failure to report a mandatory reporting event - misconduct not protected by qualified immunity. This failure is consistent with Officer Gilstrap's [public record of "evidence mishandling"](#) in previous deadly incidents, as well as the Columbia Police Department's own history of investigative misconduct and gross accountability failure in cases like the [knowingly wrongful conviction of Ryan Ferguson](#). I was a classmate of Kali Heitholt, rode the bus with Ryan Ferguson and Chuck Erickson at West Jr High, and grew up playing soccer with Officer Westbrook's son. After 20 years it is apparent **that the CPD has learned nothing** from its financially disastrous forced accountability event.
- **Solicitation of Evidence Destruction:** The Petitioner's demand for my deletion of content found on the minor child's iPad constitutes **Solicitation of Evidence Destruction**, as that hardware contains the primary proof of child endangerment. Furthermore, the Petitioner has no standing to demand the deletion of content featuring the Respondent's likeness which was shared with Ben Meers without consent. However, the Petitioner's **November 8, 2024 notice** to Ben Meers was a valid withdrawal of consent for *her* imagery under the **Take It Down Act**, as were my follow-up requests to Meers to not only delete Petitioner's content (and provide affidavit attesting to same) but also content including myself that she had unlawfully shared with him.
- **Ongoing Financial Fraud:** Petitioner's counsel has maintained a fraudulent record regarding a **jointly-owned property in Newton, KS** and **Form 14 income perjury** for 152 days, despite having actual knowledge of the public title and bank records.

Also attached is yesterday's correspondence from Petitioner's counsel, who declined to address these criminal and financial frauds on the record while asserting her status as an "expert" attorney. I have also attached the documentary record of Ben Meers and DS Political repeatedly viewing my messages yet failing to comply/assist with NCII takedown requests, Atamian's attempt to silence me while contradicting Mirsky's clumsy lies about internal investigations, and Officer

Gilstrap completely derelicting his duty and openly engaging in Section 1983 violation. The telemetry data attached also shows Chief Schlude's awareness of culpability, including opening my messages on Christmas and at midnight.

The Court is now being moved to authorize the subpoenas necessary to reach the digital evidence held by **DSPolitical** and associated actors.

Regards,
