Ms. Benner,

I am writing to provide a formal supplemental record regarding the representations made to the Court during the December 16, 2025, hearing. After review of the transcript, I note that it was represented to the Commissioner that I had already been provided with online banking access to Union State Bank. A statement used to mitigate the Petitioner's midnight closure of joint marital accounts and ongoing collusion with Union State Bank as well as avoid a finding of contempt.

Please find the attached correspondence from Michael McWhirt, EVP/COO/CRO of Union State Bank, dated January 23, 2026, and March 10, 2026. These records—and the underlying Federal Reserve investigation concluded in March 2026—confirm that:

1. As of late January 2026, the bank had no record of my enrollment, proving the December 16th representation to the Court was factually false.
2. Access was only provisioned as a direct result of federal regulatory intervention.
3. Marital rental income has been diverted into a 'black box' account at Union State Bank which the Petitioner established in her name alone, in direct violation of the standing TRO.

Furthermore, the bank's March 10th refusal to disclose information on accounts established in the Petitioner's name alone confirms the diversion of 100% of the rental income from the Newton property into 'black box' accounts. This is a direct violation of the standing TRO and further evidence of the material misrepresentations regarding the Petitioner's actual income as omitted from the Form 14.

I am providing this now to ensure your responses to my First Interrogatories (specifically #5, #15, and #17) are consistent with this federal regulatory record. Any further attempt to characterize the Petitioner's obstruction of financial discovery or her solicitation of evidence destruction as a 'misunderstanding' will be met with this clinical timeline for the purpose of seeking sanctions under Rule 55.03 and a De Novo review of the Commissioner's prior leniency.

Ms. Benner,

Further to my correspondence of April 17, 2026, I am providing additional evidence regarding the Petitioner's financial representations.

The Petitioner's October 16 Property and Debt Statement categorizes a Capital One debt as "jointly held." However, the docket for [Case No. 25BA-CV05964](#) confirms this is a sole-liability account. The record shows the Petitioner was recorded as "Non-Est" on November 23, 2025, and January 27, 2026; the creditor made no attempt to serve me or name me as a co-defendant, confirming this is not a marital obligation.

Please ensure that your responses to my First Interrogatories (specifically #5, #15, and #17) and the updated Form 14 account for this sole liability.

I require confirmation by this Friday, April 24, that a corrected Form 14 reflecting these realities—and the Union State Bank records previously provided—will be filed.

Regards,
